DR. SCHENCK'S PULMONIC SYRUP SEA WEED TONIC, AND MANDRAKE PILLS. These medicines have undoubtedly performed more cures of Consumption than any other remedy known to the American public. They are compounded of vegetable ingredients, and contain nothing which can be injurious to the human constitution. Other remedies advertised as cures for Consumption, probably contain opium, which is a somewhat dangerous drug in all cases, and if taken freely by consumptive patients, it must do great injury; for its tendency is to confine the morbid matter in the system, which, of course, must make a cure impossible. Scheack's Pulmonic Syrup is warranted not to contain a particle of opium; it is composed of powerful but ess herbs, which act on the lungs, liver, stomach and blood, and thus correct all morbid secretions, and expel all the diseased matter from the body These are the only means by which Consumption can be cured, and as Schenck's Pulmonic Syrup, Sea Weed Tonic, and Mandrake Pills are the only medicines which operate in this way, it is obvious they are the only genuing cure for Pulmonary Consump tion. Each bottle of this invaluable medicine is ac companied by full directions. Dr. Schenck is professionally at his principal office, corner Sixth and Arch s'reets, Philadelphia, every Monday, where all letters for advice must be addressed. jel-f,m,w,lm

--The President in Rhode Island.

AT A CLAM BAKE. When the boat with the President and party on beard reached Rocky Point, Rhode Island, yesterday afternoon, he was welcomed by the largest crowd ever assembled there. Col. Isaac M. Potter, chairman of the veteran re-union committee, came aboard and ecorted the President on the wharf, where he was received by Gen. Burnside, who addressed him on behalf of the veteran soldiers there assembled, expressing their confidence in his administration.

The President replied, expressing pleasure at meeting the veterans of Rhode Island, and at knowing he had their support and approval, expressing the hope that his action will be such in future as to merit continuance of that approval.

The President, accompanied by Gen. Burnside, Col. Potter, Senator Anthony, and the remainder of the presidential and gubernatorial party, were then conducted to the dining hall, and were received with cheers and applause, and a military salute from the veterans, the crowds surging and cheering.

After partaking of a genuine Rhode Island clam bake the President was escorted to the hotel, but in response to persistent calls went out on the balcony and stood with uncovered bead amid the cheers of the vast throngs. When the enthusiam had subsided the President spoke as follows: "Ladies and Fellow-Citizens: I know very

well that the interest on this occasion centres around Union soldiers. I therefore appear merely for the purpose of introducing to you a friend distinguished as a lawyer, scholar and especially at a Union soldier, Attorney General Charles Devens, of Massa-General Devens was received with three cheers, and made a few remarks. Speeches were also made by Governor Van Zandt, General Burnside, Governor Hartranft, Gen eral Robinson and others. After speaking

concluded the telephone connection with Providence was made, and the President held a conversation with Professor Bell at Providence. REVIEW AND RETURN.
At 3:30 o'clock the veteran organization was reviewed by the President and othdistinguished visitors, and immediately after the review the President was escorted to a boat by the veterans and returned to Providence. He was received in Providence by throngs of enthusiastic citizens, who had

been awalting his return for four hours. Early in the evening the President and party, Senator Anthony, Governor Van Zandt and staff, and legislative committee, sat down to a private dinner. RECEPTION EN MASSE. The President held a reception in the even-ing at the executive mansion, commencing

at 8:30. Thousands upon thousands filled the streets in the vicinity, and all who could, crowded into the house and passed before the President. The grounds were brilliantly illuminated with locomotive headlights and Chinese lanterns. The crowd became so large and so eager to get into the house that a little and so eager to get into the house that a little

induced to come out on the balcony and make a speech, as follows:

"Mr. Mayor and fellow-citizens:—It is with great pleasure that I meet you here. For the past hour and a quarter I have been shaking hands, but we have found it impossible in this retail way to greet the people of this state. We have accordingly thought it best to undertake exchange of greetings with you by the wholesale. [Laughter.] I therefore ask every lady and gentleman and boy and girl to consider that here and now I give you a hearty buckeye shake."

Speeches were also made by Secretary Devens, Secretary Evarts and Gen. Burnside. vens, Secretary Evarts and Gen. Burnside. after which the President and party returned to the house and the crowd gradually retired.

London, June 29.—A Vienna dispatch to the Times arriounces that Minister Tisza has received a most flattering telegram from Emperor Francis Joseph, who says that having read the minister's speech on eastern affairs, he could not deny himself the pleasure of expressing his satisfaction at his patriotic and excellent words. This telegram has produced a great sensation. The debate on Wednesday and Thursday in the Hungarian Diet was hardly anything more than a unanimous expression of approval and confidence in Count Andrassy s policy.

Russian Reserves Ordered to the Front The Post has a St. Petersburg dispatch saying:—"The army corps stationed at Lublin, in Poland, has been ordered to march towards the Danube, and another corps is ordered to be in readiness for immediate ad-

Russians Crossing the Banube Near Silistria. MANCHESTER, June 29.—A special dispatch to the Guardian from Vienra says 160,600 Russians have occupied the island of Barcea, near Silistria. It is unknown whether they succeeded in crossing to the Turkish side, but the report that the Turks ioned their positions at Tchernavoda and Medsidge is thought to be only explicable if the Russians have crossed near Silistria.

Russia Picking a Quarrel with Eng land A Pera dispatch to the Guardian says:\_"I s stated here that Count Schouvaloff, on

behalf of the Czar, will raise objection to the presence of Sir Arnold Kemble, English military attache, with the Turkish army in Terrible Fighting on the Danube. A dispatch to the Guardian from Vienna, dated Thursday, says.—"At Nikopolis and Sistova yesterday the losses on both sides

THE PRESIDENT'S LATE ORDER. Did Hon. Jas. F. Wilson Violate it? NEW YORK, June 29 .- A Washington de spatch says the President's late order, forbidding office holders from taking part in political conventions, has been openly vio-lated by the Hon. Jas. F. Wilson, of Iowa, who acted as chairman of the Iowa republi-ern convention. Mr. Wilson was reappointed a government director in the Union Pacific railrord by the President a few weeks ago. The latter stated, just before leaving for the east, that he should make a special example of the first case of neglect to conform to his order which should be brought to his attention. There has been much specula-tion to-day in consequence as to what action the President will take with an officer so prominent and influential as Mr. Wilson. It s likely that an excuse will be found for Mr.

New York, June 29.—A Columbia. S. C., dispatch says:—L. Cass Carpenter, U. S. internal revenue collector for this district, was arrested here last evening, at the instance of the investigating committee of the general assembly, now sitting in Columbia, and held in the sum of \$2,000 bail to appear for examination to-day. The charge is that Carpenter, while editor of the Union, published in this city several years ago, obtained two state treasury warrants, for 855 and \$95, respectively, for public printing, which he increased by prefixing the figure 6 in each instance, so as to make the amounts read \$655 and \$695. The fact that the war-rants were so changed after having been audited and approv. 1, and before being presented for payment, has been fully estab-

and so eager to get into the house that a little
before 10 o'clock the doors were closed. At
that time the streets for nearly a half mile
were packed with people. The President was
induced to come out on the balcony and make
a speech, as follows:

"Mr. Mayor and fellow-citizens:—It is
with great pleasure that I meet you here.
For the past hour and a quarter I have been
shaking hands, but we have found it impossible in this retail way to greet the people of
this state. We have accordingly thought it
best to undertake exchange of greetings with
you by the wholesale. [Laughter.] I therefor eask every lady and gentleman and boy
and girl to consider that here and now I give
you a hearty buckeye shake."

PROVIDENCE, June 29.—The President and his party remained at the Executive Mansion last night. This morning, after a quiet breakfast with Gov. Van Zaudt, the President was escorted by the Newport artillery and the Providence 1st light .nfantry regiment through the crowded streets to Music hall, which was handsomely decorated. ment through the crowded streets to Music hall, which washandsomely decorated. Here 1,200 children of the public schools were waiting for the President, who was accompanied by Mrs. Hayes and other lades of party; Gov. Van Zandt, Mrs. Van Zandt, Gen. Burnside and other distinguished visitors. After the party were seated the children sang "My Country, Tis of Thee," "See, the Conquering Hero Comes," "I Waited for the Lord," (Mendelssohn,) "Fairy Ship Choral," "Hallelujah" and "Sweeet Bye and Bye." The singing was simply exquisite, and elicited the most rapturous demonstration of applause.

President Hayes said: "My Young Friends, the Superintendent and Teachers: On behalf of our department I wish to congratulate you and return to you our very heartiest thanks." We hole, we pray, that the day is not far distant when every state of our Union will possess such educational advantages as you enjoy. When that day comes public opinion will be patriotic, wise, pure and just, and in this country public opinion is the govern-ment." [Great applause.]
As the President started to leave the hall,

the children singing "Sweet, bye-and-bye, by preconcerted arrangement, the young misses in the front gallery cast continuous showers of roses before and upon him, as he passed down the aisle. After the President eft the hall Mayor Doyle introduced Mrs. Hayes to the children, and her gracious bow was responded to with a perfect ovation of applause. Of all the testimonials of Rhode Island to the President this greeting of the children was, perhaps, the most pleasant and thoroughly successful. The P.esidential party returned to their carriages and were escorted by the military to the Dexter training ground where the entire division of the Rhode Island military was assembled under command of Major General Wm. R Walker. Here, after some evolutions, the column marched in review before the President, who was then taken into the line and e. corted through the principal states to the Executive Mansion, where after a marching salute the troops were dismissed. The day was beautiful, the people poured into town from all parts of the state, and the

THE NEW INDIAN WAR Campaign Against the Nex Perces.
SAN FRANCISCO, June 29.—A press dispatch from Boise City says: Three companies of the 1st cavalry and two of the 12th infartry are now en route to this point and expected to arrive in a few days. The Boise will be made the military depot, and will be strongly garrisoned. Capt. Robins' company of thirty men is in camp on the upper ward. Nez Perces scouts are known to be on the Wiser, their signal fires having been seen, and they doubtless have a line of sigpals established between the Wiser and their camp on Salmon river. This may be no-thing more than a precautionary measure to guard against the approach of troops from

THE POSITION OF THE HOSTILES on Salmon river is one of great natural strength, in which they will be able to oc cupy the attention of all the troops that may be sent against them. It will be impossible to prevent them from receiving reinforce-ments from Indians disposed to join them, who can reach them in small detachments through the country so perfectly known to them. It is folly to rely upon the peaceful professions of the Indians. Old men and women will remain upon the reservations or in their camps, while the young men can hold themselves

IN READINESS TO TAKE THE WAR PATH. The Indian camp on the Salmon river is about two hundred miles from Boise City, and by a shorter route than the one usually traveled. Coming southward it passes up the little Salmon across the mountain, and then down the Wiser river through the settlements. The hostiles are not likely to come this way unless hotly pressed on all sides or successful enough to spare a force for raid-ing the settlements. If surrounded on all sides they will be able to maintain

A LONG AND FIERCE RESISTANCE, as the country in which the operations will take place is rough and mountainous in the extreme, and is full of fortresses and strongholds, with which the Indians are perfectly familiar. There is danger that while atten-tion is being directed to the position on the Salmon and all the forces are being sent in that direction, the disaffected Indians who have not yet joined the hostile camp may open the game in another quarter.

London, June 29.—A deputation of citizens had an interview with Right Hon. George Schater Booth, president of the local government board, yesterday, in reference to the refusal of that board to sanction certain expenditure for sending children to Canada under the charge of Miss Rye. Mr. Sciater Booth replied that acting as a re-sponsible minister for the crown he did no, feel that he should be justifical in continuing the system of emigration to Canada which had been carried out under Miss Rye's direc-tion. He pointed out that if they provided emigration on a large scale it would be taking valuable labor from this country.

The North Carolina Marshal's Office. HEARING IN THE CASE OF DEPUTY

FRANKS. Yesterday afternoon the case of Joshua A. Franks, charged with defrauding the government by presenting false vouchers, was continued before U. S. Commissioner Plant, aller our report closed, District Attorney H. H. Wells, H. H. Wells, jr., and Col. Lusk, U. S. district attorney for the western district of North Carolina, appeared for the prosecu-tion, and Gen. S. S. Henkle and ex-Senator Pool for the defence, and several witnesses for defence testified that the reputation of Eastman for truth and veracity was not good. Col. Rollins testified that he had known Franks since 1863, and his reputation for integrity and veracity was never questioned.

TO-DAY. The trial was resumed at one o'clock to-day and the defence called James Taylor, of Cherokee county, who testified that Eastman's character for truth and veracity was not very good, and could not believe him on oath. Witness knew Franks, and his repu-ulation was good. Witness was not allowed to state whether he knew that Franks came here to give information as to the alleged frauds.

After waiting for some time for a witness who did not respond the defence closed.

The prosecution moved to amend the warrant and complaint, so as to read explicitly that Franks "did make and cause to be made and present, and cause to be presented for payment and approval, by Robert M. Douglas, marshal of the western district of North Carolina, a certain account for services and fee as deputy marshal for said dis-trict, in the amount of \$411.50, knowing the same to be false, fictitious and fraudulent," and the counsel proceeded to argue this mo-

It appears that this confidence man went to a village near Baltimore, where he stole a coat, for which he was arrested in Baltimore, and upon searching him in the station-house the watch and chain stolen from Mrs. Levy were found and recognized by the officers as that described in the circular of Major Richards. Word was sent to the police here, and yesterday Detectives McDevitt and McElfresh proceeded to Baltimore and brought the stolen watch to this city. Tilden was at once recognized by these officers, and after the case of larceny committed in Maryland is disposed of he will be turned over to the authorities here to be dealt
